Editorials

Optical Coherence Tomography and Virtual-Histology Intravascular Ultrasound: Strange Bedfellows? … or Not?
Gary S. Mintz, MD .......................................................... e004045

Quantifying Plaque Burden and Morphology Using Coronary Computed Tomography Angiography to Predict Coronary Physiology: Helpful…But Is It Sufficient?
Marcelo F. Di Carli, MD; Ron Blankstein, MD .......................................................... e004058

Thrombosis and Prognosis Following ST-Elevation Myocardial Infarction: Left Ventricular Thrombus Assessment by Cardiac Magnetic Resonance
Jiwon Kim, MD; Jonathan W. Weinsaft, MD .......................................................... e004098

Original Articles

Coronary Artery Disease

Direct Comparison of Virtual-Histology Intravascular Ultrasound and Optical Coherence Tomography Imaging for Identification of Thin-Cap Fibroatheroma
Adam J. Brown, MD; Daniel R. Obaid, MD, PhD; Charis Costopoulos, MD; Richard A. Parker, MSc;
Patrick A. Calvert, MD, PhD; Zhongzhou Teng, PhD; Stephen P. Hoole, MD; Nick E.J. West, MD;
Martin Goddard, MD; Martin R. Bennett, MD, PhD .................................................. e003487

Relationship Between Quantitative Adverse Plaque Features From Coronary Computed Tomography Angiography and Downstream Impaired Myocardial Flow Reserve by 13N-Ammonia Positron Emission Tomography: A Pilot Study
Domini Dey, PhD; Mariana Diaz Zamudio, MD; Annika Schuhbaeck, MD; Luis Eduardo Juarez Orozco, MD;
Yuka Otaki, MD; Heidi Gransar, MSc; Debiao Li, PhD; Guido Germano, PhD; Stephan Achenbach, MD;
Daniel S. Berman, MD; Aloha Meave, MD; Erick Alexander, MD; Piotr J. Slomka, PhD .................................................. e003255

Accuracy of Computed Tomographic Angiography and Single-Photon Emission Computed Tomography–Acquired Myocardial Perfusion Imaging for the Diagnosis of Coronary Artery Disease
Armin Arbab-Zadeh, MD, PhD, MPH; Marcelo F. Di Carli, MD; Rodrigo Cerici, MD; Richard T. George, MD;
Marcus Y. Chen, MD; Marc Dewey, MD; Hiroyuki Niinuma, MD, PhD; Andrea L. Vavere, MPH; Aisha Betoko, PhD;
Michal Plotkin, MD; Christopher Cox, PhD; Melvin E. Clouse, MD; Andrew E. Arai, MD; Carlos E. Rochitte, MD;
Joao A.C. Lima, MD; Jeffrey Brinker, MD; Julie M. Miller, MD .................................................. e003533

Myocardial Infarction

Left Ventricular Thrombus Formation After ST-Segment–Elevation Myocardial Infarction: Insights From a Cardiac Magnetic Resonance Multicenter Study
Janine Pöss, MD; Steffen Desch, MD; Charlotte Eitel, MD; Suzanne de Waah, MD; Holger Thiele, MD;
Ingo Eitel, MD .......................................................... e003417

Valvular Heart Disease

Replicating Patient-Specific Severe Aortic Valve Stenosis With Functional 3D Modeling
Dimitrios Maragianis, MD; Matthew S. Jackson, MSc; Stephen R. Igo, BSc; Robert C. Schutt, MD;
Patrick Connell, PhD; Jane Grande-Allen, PhD; Colin M. Barker, MD; Su Min Chang, MD;
Michael J. Reardon, MD; William A. Zoghbi, MD; Stephen H. Little, MD .................................................. e003626
