Editorials

Exploiting Differences in Myocardial Compartments With Native T1 and Extracellular Volume Fraction for the Diagnosis of Hypertrophic Cardiomyopathy
Erik B. Schelbert, MD, MS; James C. Moon, MD ................................................................. e004232

Decision Making for Implantable Cardioverter Defibrillator Implantation: Is There a Role for Neurohumoral Imaging?
Jeffrey J. Goldberger, MD, MBA; Robert C. Hendel, MD .......................................................... e004275

The Sophistication of Simplicity: Ventricular Function and Oximetry Predict Survival in Eisenmenger Syndrome
Eric V. Krieger, MD; Anne Marie Valente, MD ................................................................. e004201

Arterial Calcification in Cardiovascular Risk Prediction: Should We Shift the Target for Screening Beyond the Coronaries?
Joe X. Xie, MD; Leslee J. Shaw, PhD ................................................................................. e004171

Calciﬁed Pipes: You Better Call the Electrician Too
Sean D. Pokorney, MD, MBA; Jonathan P. Piccinni, MD, MHS .................................................. e004202

Prosthetic Valve Thrombus Versus Pannus: Progress With Imaging
Crystal R. Bonnichsen, MD; Patricia A. Pellikka, MD .......................................................... e004283

Exercise-Induced Cardiac Remodeling: Not a Case of One Size Fits All
Andrew D’Silva, MRCP (UK); Sanjay Sharma, MD, FRCP (UK), FESC .............................................. e004277

Original Articles

Cardiomyopathies

T1 Mapping in Discrimination of Hypertrophic Phenotypes: Hypertensive Heart Disease and Hypertrophic Cardiomyopathy: Findings From the International T1 Multicenter Cardiovascular Magnetic Resonance Study
Rocio Hinojor, MD, MRes; Niharika Varma, MBBS, BSc; Nick Child, BM, MRCP; Benjamin Goodman, MSc; Andrew Jabbour, MD, PhD; Chung-Yao Yu, MBBS, MD, Rolf Gebker, MD, PhD; Adelina Doltra, MD, PhD; Sebastian Kelle, MD, PhD; Sitara Khan, MD, PhD; Toby Rogers, MD; Eduardo Arroyo Ucar, MD; Ciara Cummins, MSc; Gerald Carr-White, MBBS, PhD; Eike Nagel, MD, PhD; Valentina O. Puntmann, MD, PhD ................................................................. e003285

Predicting Risk Versus Predicting Potential Survival Beneﬁt Using 123I-mIBG Imaging in Patients With Systolic Dysfunction Eligible for Implantable Cardiac Deﬁbrillator Implantation: Analysis of Data From the Prospective ADMIRE-HF Study
Rory Hachamovitch, MD, MSc; Benjamin Nutter, MS; Venu Menon, MD; Manuel D. Cerqueira, MD .................................................. e003110

Congenital Heart Disease

Impaired Right, Left, or Biventricular Function and Resting Oxygen Saturation Are Associated With Mortality in Eisenmenger Syndrome: A Clinical and Cardiovascular Magnetic Resonance Study
Annette S. Jensen, MD, PhD; Craig S. Broberg, MD; Riikka Rydman, MD, PhD; Gerhard-Paul Diller, MD, PhD, MSc; Wei Li, MD, PhD; Konstantinos Dimopoulos, MD, MSc, PhD; Stephen J. Wort, MA, MBBS, FRCP, PhD; Dudley J. Pennell, FRCP, FMedSc; Michael A. Gatzoulis, MD, MRCPath, PhD; Sonya V. Babu-Narayan, MBBS, BSc, MRCP, PhD ................................................................. e003596
Epidemiology
Comparison of Atherosclerotic Calcification in Major Vessel Beds on the Risk of All-Cause and Cause-Specific Mortality: The Rotterdam Study
Daniel Bos, MD, PhD; Maarten J.G. Leening, MD, MSc; Maryam Kavousi, MD, PhD; Albert Hofman, MD, PhD; Oscar H. Franco, MD, PhD; Aad van der Lugt, MD, PhD; Meike W. Vernooij, MD, PhD;
M. Arfan Ikram, MD, PhD .......................................................... e003843

Coronary Artery Calcium Progression and Atrial Fibrillation: The Multi-Ethnic Study of Atherosclerosis
Wesley T. O’Neal, MD, MPH; Jimmy T. Efrid, PhD, MSc; Waqas T. Qureshi, MD; Joseph Yeboah, MD; Alvaro Alonso, MD, PhD; Susan R. Heckbert, MD, PhD; Saman Nazarian, MD, PhD;
El Sayed Z. Soliman, MD, MSc, MS .............................................. e003786

Magnetic Resonance Imaging
Continuous Rapid Quantification of Stroke Volume Using Magnetohydrodynamic Voltages in 3T Magnetic Resonance Imaging
T. Stan Gregory, MS; John Oshinski, PhD; Ehud J. Schmidt, PhD; Raymond Y. Kwong, MD, MPH;
William G. Stevenson, MD; Zion Ts Ho Tse, PhD .................................. e003282

Valvular Heart Disease
Sixty-Four–Section Cardiac Computed Tomography in Mechanical Prosthetic Heart Valve Dysfunction: Thrombus or Pannus
Sabahattin Gündüz, MD; Mehmet Özekan, MD; Macit Kalıcı, MD; Ozan Mustafa Gürsoy, MD;
Mehmet Ali Arstarçoğlu, MD; Süleyman Karakoyun, MD; Ahmet Çağrı Aykan, MD; Murat Biteker, MD;
Tayyar Gökdenez, MD; Hasan Kaya, MD; Mahmut Yesin, MD; Nilaifer Ekşi Duran, MD; Deniz Sevinç, MD;
Tahsin Güneysu, MD ................................................................. e003246

Ventricular Structure and Function
Exercise-Induced Left Ventricular Remodeling Among Competitive Athletes: A Phasic Phenomenon
Rory B. Weiner, MD; James R. DeLuca, BA; Francis Wang, MD; Jeffrey Lin, MD; Meagan M. Wasfy, MD;
Brant Berkstresser, MS, ATC; Eric Stöhr, PhD; Rob Shave, PhD; Gregory D. Lewis, MD;
Adolph M. Hutter, Jr, MD; Michael H. Picard, MD; Aaron L. Baggish, MD .............................................. e003651

Advances in Cardiovascular Imaging
Improving Appropriateness and Quality in Cardiovascular Imaging: A Review of the Evidence
Sanjeev Bhattacharyya, MD, MRCP, FESC; Guy Lloyd, MD, FRCP .................................................. e003988
